Please find below and/or attached an Office communication concerning this application or proceeding.

AK

Office Action Summary	Application No. 10/788,971	Applicant(s) JORGENSEN ET AL.	
	Examiner Michael P. Stafira	Art Unit 2877	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on amendment filed June 30, 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-8 is/are pending in the application.
 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 2-7 is/are allowed.
- 6) ☒ Claim(s) 1 and 8 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
 Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
 Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 8 are rejected under 35 U.S.C. 102(e) as being anticipated by Karlson et al. ('048).

Claims 1, 8

Karlson et al. ('048) discloses introducing the object having a metal film that is capable of exhibiting SPR into a fluid (Col. 6, lines 20-22). Karlson et al. ('048) further discloses introducing the object into a fluid (Col. 26, lines 60-62); introducing the fluid containing the object into a flow imaging system (Fig. 14a, Ref. 85); collecting spectral SPR data corresponding to the object, the spectral SPR data including at least one of: an entire angular spectrum corresponding to the object; and an entire wavelength spectrum corresponding to the object (Col.

Art Unit: 2877

1, Ref. 28-33).

Figure 14a

Response to Arguments

3. Applicant's arguments filed June 30, 2005 have been fully considered but they are not persuasive.

Applicant takes the position that the rejection under USC 102 (e) fails to disclose "a metal film capable of exhibiting SPR" etc...

The examiner's position is that the reference of Karlson et al. ('048) discloses applicant's claimed limitation of the use of a metal film (Col. 6, lines 20-22) and therefore reads on the claimed limitation. The rejection under USC 102(e) stands as presented in the above paragraphs as reading on applicant's limitations.

Allowable Subject Matter

4. Claims 2-7 are allowed over the prior art of record.
5. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 2, the prior art fails to disclose or make obvious a method for collecting data corresponding to interactions between a first type of molecule and a second type of molecule using surface plasmon resonance (SPR) spectra having the steps of providing a plurality of objects including a metal film capable of exhibiting SPR; functionalizing each object in the plurality of objects by attaching at least one molecule of the first type to the object, wherein the first type of molecule is selected because said first type of molecule preferentially interacts with the second type of molecule; introducing the objects that have been functionalized into a fluid; introducing a plurality of molecules of the second type into the fluid, such that an association phase is initiated, and in combination with the other recited limitations of claim 2. Claims 3-7 are allowed by the virtue of dependency on the allowed claim 2.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
